

HF200

Fully automatic whole house filtration system to remove particulate, sediment, sand and silt.

Brought to you by Aerus, an innovator in water technology, to the highest standards.

Electronic control valve
by Aerus Origins™

Features

- Metered control valve with advanced electronics for efficient operation
- System can be set up to backwash based on water use or time
- User-friendly programming with full diagnostics
- Fully adjustable cycles for more efficient and effective operation
- Large LED screen displays operational data in “real time”, including current rate, peak flow rate, last backwash date and more
- Includes by-pass valve with pipe fittings
- Quick connect fittings used on by-pass, drain line and power cord
- Five micron filter media; NSF certified
- Self-charging capacitor keeps time of day during power outages for 48hrs
- 10/7/5/1 Year Limited Warranty – please refer to Warranty Statement for details

Consumer Benefits

- Enjoy whole house filtration by reducing sediment, particulate, sand and silt
- Remove sediment from drinking water and ice cubes
- Automatic, care-free operation

Specifications

- Includes water and air check valves for “air draw” operation
- 10” x 54” mineral tank is rated for pressures to 600 psi; NSF certified
- High performance five micron filter media; NSF certified
- Up to 10 GPM flow rate
- 5 GPM backwash rate
- Minimum operating pressure 20 psi - maximum 125 psi
- Minimum operating temperature 34°F - maximum 110°F
- Includes 3/4” and 1” pipe fittings and 20’ x 1/2” drain line
- 90 lbs. shipping weight
